SUBSTANCE OF INTERVIEW DESCRIBING THE GENERAL NATURE OF WHAT WAS DISCUSSED:		
<p>Examiner contacted Applicants representative to resolve the issues pending for claim 44. The Examiner informed Applicants representative that claim 44 was too broad and did not encompass aspects of the other independent claims which would resolve the prior art rejection presented. More specifically the Examiner suggested that the limitations reciting a variable synchronization parameter which were not present in the prior art of record would be beneficial in resolving the prior art rejection. Applicants representative agreed to incorporate the elements of the variable synchronization parameter and approved an Examiners amendment to that effect. See attached Notice of Allowance.</p>
